Product Description

16 Hours Retention

The inner insulation of the backpack cooler is thickened with 10-8mm(others 5mm) foam and the leak proof EVA liner works together to keep food and drinks cold up to 16 hours.

Waterproof & Lightweight

The outermost layer of the cooler backpack is made of high-density scratch-resistant nylon material and Oxford fabric ensuring 100% waterproof and easy to clean. Sufficient material but overall light. Lightweight 1.76 LB(others 1.2 LB) portable design with adjustable padded strap, more comfortable than carrying a heavy traditional big cooler.

2 Insulated Compartments & Multi-Pockets

The backpack cooler includes 1 main large insulated leak proof storage compartment for drinks, 1 upper compartment used to organize dry items, 1 front zipper pocket that comes with a mesh pocket and braided cord for accessories. 2 side pockets, one for holding tissues and the other for holding objects such as umbrellas.

Leak-proof & Sweat-Free

Cooler backpack liner adopts high-tech seamless hot pressing process for leak-proof. We support free replacement or return if any leak happens.

26 Cans Large Capacity

Measures 17"x10.7"x6.7"(H x L x W) and can hold up to 26 cans (355ml), roomy enough to pack meals, beers, tall beverages, snacks and other necessities.
